Our Results

- Can we obtain space optimal streaming algorithms with fast update times?

- **Yes! For many problems.**

- **Theorem**: For $p > 2$, there is an algorithm using **optimal** $\tilde{O}(n^{1-2/p})$ bits of space and an **update time of** $O(1)$ to approximate $F_p(x)$ up to constant factors

- Improves on poly$(\log n)$ update time of earlier works such as [Andoni, Krauthgamer, Onak '10]
